

Welcome to Windows 11 for Education

Empower educators and unlock every student's potential with Windows 11, the platform designed for today's digital classrooms. Windows 11 is an accessible, productive, and secure platform with devices and apps to meet every student's needs and every school's budget

Flexibility, privacy, and personalization are more important than ever in the era of blended learning. With built-in accessibility and powerful security, Windows 11 is an affordable solution that is easy to manage and deploy. Help students with all abilities and learning styles achieve success through trusted and reliable tools and devices made for education.

Flexibility

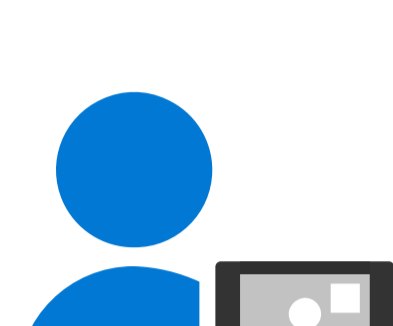

Privacy

Personalization

Education experiences designed for all

Students of all abilities and backgrounds deserve equal access to education, whether at school or online. Windows 11, the most inclusively designed Windows ever, offers greater accessibility and more built-in learning tools to meet the needs of every learner.

Learn from anywhere with high-definition video conferencing.

Get built-in accessibility features, such as voice typing and voice commands, magnifier, colour filters, narrator, and real-time closed captions, at no extra cost.

Write, draw, and navigate with ease using a more adaptive touchscreen and added digital pen functionality.

Activate Ease of Access settings with a single click to minimize distractions.

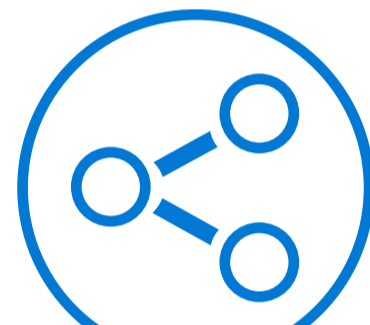

Students deserve accessibility.

One in five children in the U.S. have learning and attention issues such as dyslexia and ADHD.¹

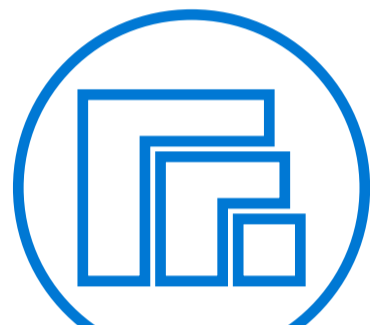

Key Features

Simplified user experience

Runs all UWP, PWA, and Win32 applications and supports third-party education applications

Improved docking, multi-monitor support and Windows snapping

Customizable desktops and widgets

Offline and online productivity backed up by the cloud

Simple to deploy, manage, and secure

Safeguard students, teachers, and schools wherever they are with enhanced privacy protection and security controls from devices to the cloud. With easy-to-use management tools and hands-free setup, maximize class time for instruction—not troubleshooting.

- Get built-in always-on threat protection that detects and blocks malware.
- Help defend students from unsafe web content and downloads with Windows Defender SmartScreen.
- Enable single sign-on to minimize disruptions with Azure Active Directory.
- Help protect access and identities and lock down unsafe apps.
- Simplify management and deployment while optimizing device performance all year long with Intune for Education.

Students deserve security.

13% of educational institutions have reported ransomware attacks—the most of any sector.²

Key Features

Non-disruptive security updates

Windows Defender Antivirus and Windows Defender SmartScreen

Microsoft Store access and Modern

Multifactor authentication

Zero-touch deployment

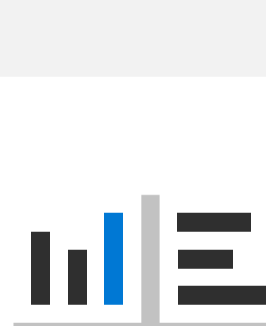

Secure Microsoft Edge Browser

Optimized performance for low-cost devices

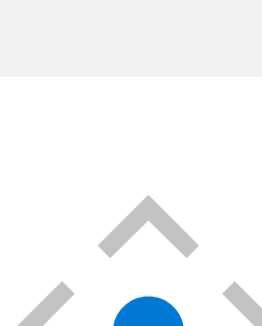

Maximize technology budgets with high-quality, low-cost devices. Increase technology access for more students with affordable tools that will equip them with the collaboration, creativity, and critical thinking skills they need for the future.

Discover a wide range of affordable, personalized education devices built for both in-person and online learning.

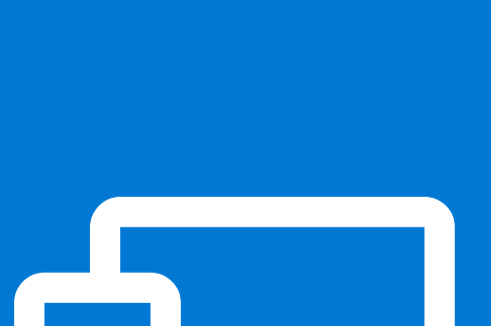

Access familiar learning apps, including Microsoft Word, Excel, OneNote, and Teams.

Enable student learning with a streamlined environment designed to improve focus.

Experience optimized performance with curated education-first apps and productivity tools designed to run on budget-friendly devices.

Students deserve equitable access.

75% of K-12 students say their ideal school offers digital tools for individualized learning, such as a laptop for every student.³

Key Features

Precision Touchpad

Supports over 128 GB storage and over 8 GB RAM

Supports large core processor

Bluetooth support

Foreground app boost and reduced OS footprint
